HOME HEALTH SERVICES	NOT COVERED
OTHER:	
Frames:	Limited to one pair of ophthalmic eyeglass frames each twenty-four (24) months. The plan will pay up to \$100.00 toward the Plan Providers' usual and customary retail fee. Any charges over the allowable amount must be paid directly to the provider at the time of service
Frame Repair (when possible) Assisting in the selection of frames Proper fitting and adjustment of frames Subsequent frame adjustments	No Charge
Lenses:	Limited to one pair of plastic ophthalmic lenses including tint #1, any color each twelve (12) months, if the examination indicates the need for visual correction or a prescription change. Prescription change is: (1) a change of 0.5 Diopters or more in one or both eyes. (2) A shift in the axis of astigmatism of 15 degrees or (3) a difference of vertical prism greater than 1 prism

INDIVIDUAL PLAN B-2 BENEFIT DESCRIPTION	CO-PAYMENTS, DEDUCTIBLES AND OTHER LIMITATIONS
	dioptr. The lens benefit includes a) Single vision lenses up to ±6.00 diopters with ±3.00 cyl. b) Bifocal Lenses up to +3.00 add and including round top and flat top (25-28mm) c) Trifocal Lenses flat top (7x25 and 7x28) d) Lenticular lenses both single vision and bifocal. These benefits are designed to cover visual needs rather than cosmetic/elective options. The Plan makes available many enhanced lens options at each provider's office at reduced costs. Progressive lenses are a popular choice as they are line free whereas traditional bifocal and trifocal lenses have a line in the middle of the lens. Coatings, thin materials and other specialty items are all available lens option upgrades at reduced costs. All enhanced lens option co-payments are to be paid directly to the selected provider at the time of service, by the member.
Prescribing and ordering proper lenses Verifying accuracy of finished lenses Follow-up care as necessary	No Charge
Contact Lenses (Medically Necessary)	One pair of contact lenses each twenty-four (24) month period when "Medically Necessary" and required for anisometropia, keratoconus or following cataract surgery, or when visual acuity cannot be corrected in the better eye to better than 20/70 by standard means (eye glasses) except through the use of contact lenses. The Plan will pay up to \$175 after a \$75 co-payment, paid to the doctor which includes the eye examination, fitting, and the medically necessary contact lenses. The balance, if any, in excess of the Plan payment must be paid to your plan provider at the time of service.
Contact Lenses (Cosmetic)	Members may elect contact lenses for Cosmetic usage instead of lenses and frames once every twelve (12) months. The Plan will pay \$100 (the allowable amount) toward the Plan Provider's usual and customary contact lens package fee, which includes the eye exam, fitting and contact lenses. The balance, if any, above the allowable amount must be paid directly to the Plan Provider at the time of service or after the fitting and delivery of the contact lenses. If Cosmetic contact lenses are desired, in addition to the basic benefit, there is a fixed additional fitting fee paid directly to the plan provider and a reduced cost for the contact lenses (See Schedule of Extras at Provider's Office). This cost-controlled lens enhancement brings additional options and value to the benefit plan.
